

How to Care for your Vinyl Banner

After Using the Banner

Always **roll up** the banner securely with the letters and graphics **facing out**. Use a cardboard core in the center and tape the banner at the end.

Storage

Banners should be stored upright. Folding a banner or laying it flat while rolled up will cause it to crease and it will eventually crack. Keep it away from heat.

Cleaning

Your banner can be cleaned with Windex or another mild household cleaner.

Enjoy your quality banner!
